In the name of Allah, the most beneficent the most merciful,

### Dear shareholders

The Board of Directors is pleased to present the un-audited financial statements of the Company for the half year ended Dec 31, 2020 in compliance with requirements of the Companies Act, 2017.

### Financial Results

During the half year ended under review, following are the key financial results of the company as compare to previous half year ended:

		Half Yea	r Ended	Inc. / (Dec.)
		31-Dec-20	31-Dec-19	% age
Sales	Rupees in '000'	7,992,597	6,677,362	19.70
Gross Profit	Rupees in '000'	872,685	767,836	13.66
Pre-tax Profit	Rupees in '000'	378,816	173,608	118.20
After Tax Profit	Rupees in '000'	249,634	109,102	128.81
Gross Profit	Percentage	10.92	11.50	
After Tax Profit	Percentage	3.12	1.63	
Earning per share	Rupees	4.76	3.15	

The financial results of company for the half year ended are much better as compared to previous half year ended overall. The company has shown remarkable profits for the quarter ended December 31, 2020. This is very encouraging situation which is due to efforts of management towards profitability. The management of company striving their best to capture both local and international market more rigorously by intelligent marketing tactics.

### **General Market Conditions**

The outbreak of Covid 19 had an adverse impact on export oriented company worldwide. Inspite of the fact that Pakistan had substantially controlled that pandemic, yet there were a slowdown of export orders from international buyer due to increasing number of new cases in many countries. However, the government subsidies to industries, stability of dollar rate & reduction in power crises helped to combat the adversity caused by such pandemic and the demand for Textiles started to show signs of improvement during the second quarter and this is reflected in the results as well.

The price of raw cotton is continously rising which is infact more than what was anticipated. Due to continous decline in the annual local cotton crop, Pakistan has to import 4.5 Million bales of cotton every year to meet its local demand. It has substantial impact on the cost of finished products but the margins are expected to remain positive.

### **Future Outlook**

The government is set to unveil an ambitious textile policy with subsidies and lower rate of utilities in order to boost production and export of value added products. Such policies of government will help to tackle issues confronting the textile sector amid Covid 19 that has resulted in supply chain disruption, affected global prices of commodities hitting trade adversely.

The Management is optimistic about future performance of the Company. New markets are being targeted along with putting emphasis on existing markets as well. Management of the company further striving for best to make the company profitable and competitive for addition in value of shareholders. Our management remains focused on decreasing operating costs without compromising the quality of products and services. The management is continously working toward improvement in efficiencies and productivity as well as enchanced cost controls.

### Acknowledgment

The Board of directors would like to place on record their appreciation to the valued shareholders, bankers, the Securities & Exchange Commission and to the management of Pakistan Stock Exchange for their valuable support, assistance and guidance. The Board also express its appreciation to the staff and workers of the Company for their services, loyalty and efforts being continuously rendered.

On behalf of the Board of Directors

### INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of Din Textile Mills Limited Report on Review of Interim Financial Statements

#### Introduction:

We have reviewed the accompanying condensed interim statement of financial position of **Din Textile Mills Limited** ("the Company") as at December 31, 2020 and the related condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of changes in equity, condensed interim statement of cash flows and notes to the financial statements for the half year then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of this interim financial statement in accordance with approved accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

The figures of the condensed interim statement of profit or loss and condensed interim statement of comprehensive income for the quarters ended December 31, 2020 and December 2019 have not been reviewed, as we are required to review only the cumulative figures for the half year ended December 31, 2020.

#### Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial statement consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with approved accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the audit resulting in this independent auditor's report is Shah Naveed Saeed.
