Chairman's REVIEW

It gives me great pride to welcome you to the 34th Annual General Meeting of Din Textile Mills Ltd. and to present before you the Annual Report and Audited Financial Statements for the year ended 30th June 2021. Despite a very difficult year, Din Team worked tirelessly to overcome obstacles and ended the Financial Year on a strong note.

Economic Environment

Global activity has strengthened over recent months, short-term international economic outlook is still very much dependent on COVID-19 pandemic, especially in Pakistan's main export areas. The U.S. economic recovery appears to be sustaining fragile momentum amid an improving jobs market and a pickup in retail spending. Government has handled the pandemic with considerable dexterity which has been acknowledged worldwide. In addition, the government took swift and timely actions on the economic front to provide support to the business and economy during the difficult times. Thus, with the start of the new fiscal year, signs of economic recovery have started to unfold as evident from data on macro-variables. The fastest growth was registered in Technology Equipment, which posted a steep acceleration and the second-fastest expansion in four years. Finance-related sectors continued to perform strongly. Machinery & Equipment also registered stronger growth. Notably, Transportation registered higher activity in March for the first time since July 2020. Policy rate remain unchanged almost through out the year at the level of 7% which facilitate the growth of large manufacturing scale industries.

Pakistan economy has shown significant signs of economic recovery with fast resumption of economic dynamism. Government has taken growth-oriented initiatives and will continue to follow the positive reform momentum which will help to boost the competitiveness of Pakistan's economy and lay a strong foundation for a more robust, inclusive and sustainable recovery. Recent developments in Pakistan's macroeconomic indicators are positive. In absence of any major unexpected negative shocks, the economy is moving on a balanced and sustainable growth path. The challenge remains to elevate this sustainable growth path to a higher level. This requires extending Pakistan's production capacity and ensuring that a sufficient proportion of this additional production is exported, besides satisfying the needs of domestic consumers. Enhancing production capacity and increasing its efficiency is not possible without directing a larger proportion of the available and future income towards investments, instead of consumption.

Textile Outlook

Overall textile exports experienced a jump of 30.6% during March 2021 over the corresponding month of the last year. This extraordinary performance of the textile sector can partially because of the government's supporting policies that include the introduction of regionally competitive energy tariffs, elimination of duty and taxes on industrial raw materials, lower interest rate, and paying off pending refunds to exporters. The closure of regional textile markets such as India and Bangladesh, because of the COVID-19 pandemic has also diverted global attention towards Pakistan. The textile products that Pakistan exports are diverse, ranging from raw cotton to readymade garments. However, except

for the recent up tick, overall textile exports have followed a downward.

Large investment in machinery, availability of quality raw material, enhanced skill set, and product development are essential to realize the sector's export potential. However, success in these avenues is not possible in the absence of consistent and predictable policies, and continuous power supply. This is particularly true due to the fierce competition in textile products that our region observes. On the other hand increase in Sales tax on cotton by 7% (10% to 17%) also create liquidity issue to spinning sector as well as the cost of doing business due to finance cost on higher borrowing to procure timely quality cotton for the whole year.

Marketing Activities

The textile industry in Pakistan grew by 22.94 % during the outgoing financial year, enabling the export of \$15.4 billion worth of value-added textiles. There were numerous steps that the government took to facilitate this growth and this success must be met with a promise of consistency for the future as well. One of the reasons why we experienced this boost in exports was because of the pandemic. Covid-19 forced export-oriented industries to close down in order to limit the transmission of the virus. Accordingly, international orders were cancelled and production went to an all-time low. Now that restrictions are being eased, there was major progress within the industry and growth was inevitable. Having said this, there were also a number of initiatives that the government took on its own. It limited the exports of raw materials so that domestic demand could be catered to first. Additionally, to bridge the gap between demand and supply, it allowed for the duty-free import of raw materials. This empowered the industry and, coupled with the pressure to increase exports so that the economy could sustain itself, allowed for revenue to be generated.

During the year under review, The company's overall gross sales Increase by 41.51 % in term of value, mainly because of strict monitoring of production processes, by controlling production losses and increasing production capacity by increasing 2,976 Spindles, Whereas export sales are increased by 62.20 % due to better yarn prices in international markets as well as in domestic Markets also, domestic sale increase by 33.52 % as compared to last year. The combination of Gross Local and export sales is 68.05% and 31.95 % respectively in the current year whereas it was 72.13% and 27.87% in the year 2020.

Despite the Covid-19 impact and uncertain global economic situation the management of your Company react proactively to the situation and increase the Gross margin by 7.29% (2021: 17.65% and 2020: 10.36%), by doing strict control over cost and better stock management.

Operational Review

The cotton production in Pakistan has plunged 34% to 5.57 million bales (of 155 kg per bale) in the current fiscal year 2020-21 compared to the same period of last year. This output was in line with the full-year production estimated at a four-decade low in the ongoing year. In November 15, the Concerned authorities showed arrivals at 4.03 million bales of 155 kg (equivalent to 2.9 million bales of 480 lbs.), down 41% from the same period of last year. Pakistan's cotton production is anticipated to decline to a multi-year low due to a 10% decrease in the planted area, crop damage from heavy monsoon rains, and severe pest infestation. The shortfall in domestic supplies will be bridged through imports, with cotton imports forecast recorded at 4.9 million of 480 lbs. bales, which is slightly higher than the local production of 4.7 million bales during the year.

The Current cotton season 2020-21 at the domestic level start with the slightly high prices as compare to last year's prices of raw cotton (2020-21: Rs.9,000 2019-20: Rs. 8,500). Afterword the cotton prices are remained in increasing trend trough out the year and reach up to the level of 13,900 in June and July 2021, with an average of Rs. 11,400/- per mound as compare to the last year average prices of Rs, 9,300 per Mound of 40 Kgs which is 22.58% higher than last year's prices.

Continuing attacks of various variant's of Covid-19 in different countries of the world and uncertain situation of lock downs has adversely affected the textile industry Globally, Despite of these facts Our management team with

proactive approach keeping close monitoring of the markets behaviors' and be strategically prepared to combat any unforeseen situation. During the year our Company Produced 40.083 Million Kgs yarn as compared to 35.601 Million Kgs in last year, thereby achieving an average capacity utilization of 91.95% during the year as compared to 86.60% during the last year. 118,906 out of 123,072 spindles remained operational during the year which attended 96.61% utilization of installed capacity as compare to 100,795 working spindles out of 120,096 spindles having 83.93% utilization of installed capacity in last year. Keeping in view technological up-gradation in the textile Spinning Sector to achieve the most efficient and cost-effective production facilities which make us more comparative in the current yarn market, our company continuously doing BMR in all units of the company. Despite non consisting of Power Supplies the annual production and yield Targets mainly missed due to the temporary shutdown of production operations/shortage of Laboure during the strict lockdown in the country due to pandemic situation.

Keeping in view the Market situation in Last year 2019-2020 the management of your company decided to setup a weaving unit with the Capacity of 144 Looms. with the record time of 1 year from groundbreaking ceremony in February 2021 we Commenced the commercial production. The production Capacity on the basis of 5 months we utilized the 31.23% due to starts up of production gradually. In Jun 2021 all 144 loom come in to production in fully capacity. Our management is so confident that we perform in weaving sector more efficiently then other due to having state of the art weaving project and it will majorly contribute in increasing the wealth of stake holders.

The Power Cost as compare to Sale has reduced by 1.25% which is 7.25% of sales in the current year, whereas it was 8.50% in the year 2019-20. The Increase in net Profit margins on sale is mainly due to gradually increase in yarn demand and increase in in yarn prices after the 1st Quarter of the year under review and then remain stable throughout the period in local as well as global market.

The management of the company have made considerable efforts and motivative measure to promote a cost-conscious culture across the board, the distribution cost, administrative expenses, as compared to sales percentage has slightly increased by 0.17%, 0.04% respectively, it is 0.61% and 1.67% in the current year, whereas it was 0.44% and 1.63% of sales in the year 2019-20 respectively. Future Outlook

We believe that the demand of yarn and fabric remain strong in both market domestic and globally due to continued

rerouting of orders out of China and other regional Asian countries. United State banned textile product which are manufactured by using Xinjian province cotton, it is an opportunity for Pakistan exporters to tapped us markets. The capacity enhancements in textile sector witnessed that it is an indication of strong order flows, while exports' competitiveness is also supported by recent Rupees depreciation, the continued rationalization of imports tariffs on raw materials and power subsidies from the government. Pakistan Cotton crop has been forecasted at the level of 8 million bales for the current season 2021-22 and shortfall will be covered from import of cotton which caused high prices of raw material due to depreciation of Rupees against dollar. The Management of your company foresee the situation and proactively response to it. The profit Margins may decline due to high price of Raw material which will be reversed by tapping new exports markets.

The country's economic scenario and market conditions for the textile-spinning / Weaving sector are seems to be better for the near future, as compared to the current year. For the revival of the textile sector Government needs to address the issue related to Energy cost, import of yarn, and allow duty-free import of cotton being reason local cotton is not sufficient for local consumption and not fit for the production of high-quality fine count yarn.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFASs) issued by Institute of Chartered Accountant of Pakistan as notified under the Companies Act, 2017 and Provisions of and directives issued under the Companies Act, 2017.
- Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Functional and presentation currency

These financial statements are presented in Pak Rupees, which is the company's functional and presentation currency and figures are rounded to the nearest rupee.

2.3 Changes in accounting standards, interpretations and pronouncements

2.3.1 Standards, interpretations and amendments to published approved accounting standards that are effective in the current year and are relevant:

There are certain new standards, amendments to the approved accounting standards and new interpretations that are mandatory for accounting periods beginning on or after 1 July 2020. However, these do not have any significant impact on the Company's financial reporting and therefore have not been detailed in these financial statements.

2.3.2 Standards, interpretations and amendments to existing standards that are applicable to the company but are not yet effective:

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after 1 July 2021:

- Interest Rate Benchmark Reform - Phase 2 which amended IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 is

applicable for annual financial periods beginning on or after 1 January 2021, with earlier application permitted. The amendments introduce a practical expedient to account for modifications of financial assets or financial liabilities if a change results directly from IBOR reform and occurs on an 'economically equivalent' basis. In these cases, changes will be accounted for by updating the effective interest rate. A similar practical expedient will apply under IFRS 16 for lessees when accounting for lease modifications required by IBOR reform. The amendments also allow a series of exemptions from the regular, strict rules around hedge accounting for hedging relationships directly affected by the interest rate benchmark reforms. The amendments apply retrospectively with earlier application permitted. Hedging relationships previously discontinued solely because of changes resulting from the reform will be reinstated if certain conditions are met.

- **Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)** effective for the annual periods beginning on or after 1 January 2022 amends IAS 1 by mainly adding paragraphs which clarify what comprises the cost of fulfilling a contract, Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.
- **Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)** effective for annual periods beginning on or after 1 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.
- **Reference to the Conceptual Framework (Amendments to IFRS 3)** - Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3. An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS Standards, issued in March 2018.
- **Classification of liabilities as current or non-current (Amendments to IAS 1)** amendments apply retrospectively for the annual periods beginning on or after 1 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.

Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) - the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:

- requiring companies to disclose their material accounting policies rather than their significant accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

2.3.3 Annual Improvements to IFRS 2018-2020 Cycle - the improvements address amendments to following approved accounting standards

- IFRS 9 - The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
- IFRS 16 - The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
- IAS 41 - The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.

The above amendments are effective from annual period beginning on or after 1 January 2022 and are not likely to have an impact on the Company's financial statements.

2.3.4 The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

- Definition of Accounting Estimates (Amendments to IAS 8) - The amendments introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.
- The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 1 January 2023, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) - The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

The above amendments are effective from annual period beginning on or after 01 July 2021 and are not likely to have impact on the Company's financial statements.

3 BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention on accrual basis except cash flows and for revaluation of certain financial instruments at fair value and recognition of certain staff retirement benefits at present value.

The company's significant accounting policies are stated in note 4. Not all of these significant policies require the management to make difficult, subjective or complex judgments or estimates. The following is intended to provide an understanding of the policies which the management considers critical because of their complexity, judgment of estimation involved in their application and their impact on these financial statements. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These judgments involve assumptions or estimates in respect of future events and the actual results may differ from these estimates. The areas involving higher degree of judgments or complexity or areas where assumptions and estimates are significant to the financial statements are as follows.

3.1 Provision for taxation

The company takes into account the current income tax law and decisions taken by the appellate authorities. Instances where the company's view differs from the view taken by the income tax department at the assessment stage and where the company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

3.2 Staff retirement benefits - gratuity

Certain actuarial assumptions have been adopted as disclosed in relevant note to the financial statements for valuation of present value of defined benefit obligation. Any changes in these assumptions in future year might affect unrecognized gains and losses in those years.

3.3 Financial instruments

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques based on assumptions that are dependent on market conditions existing at Statement of Financial Position date.

3.4 Property, plant and equipment

The company reviews recoverable amount, useful life, residual value and possible impairment on an annual basis. Any changes, if material in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding affect on the depreciation charge and impairment.

3.5 Other areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows.

- 3.5.1** Provision for doubtful debts
- 3.5.2** Estimation of net realizable value
- 3.5.3** Computation of deferred taxation
- 3.5.4** Disclosure of contingencies

4 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies set out below are consistently applied for all periods presented in these financial statements.

4.1 Property, plant and equipment - owned

Recognition

Property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any identified impairment loss. Freehold land is stated at cost less any

identified impairment loss. Cost of tangible assets consists of historical cost pertaining to erection / construction period and other directly attributable cost of bringing the asset to working condition.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the period in which they are incurred.

Depreciation

Depreciation on all items of property, plant and equipment except for freehold land is charged to statement of profit or loss applying the reducing balance method so as to write off historical cost of an asset over its estimated useful life at the rates as disclosed in note 5. Depreciation on additions is charged from the month in which the asset is acquired or capitalized while no depreciation is charged in the month of disposal.

Derecognition

An item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the statement of profit or loss in the year the asset is derecognized.

4.2 Right-of-use asset

Effective July 1, 2019, the right-of-use asset is initially measured based on the initial measurement of lease liability, plus any initial direct costs incurred and an estimate of costs to be incurred to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located.

The right-of-use asset is subsequently measured at cost model. The right of use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company has elected to apply the practical expedient not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

4.3 Capital work in progress

Capital work in progress is stated at cost less any identified impairment loss. Transfers are made to relevant fixed assets category as and when assets are available for use.

4.4 Long term deposits

These are stated at cost which represents the fair value of consideration given.

4.5 Investments

Investments intended to be held for less than twelve months from the reporting date or to be sold to raise operating capital, are included in current assets, all other investments are classified as non-current. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.

4.5.1 Investment in subsidiary and associated companies

Investments in subsidiaries and Associates are recognized at cost less impairment loss, if any. At each Statement of Financial Position date, the recoverable amounts are estimated to determine the extent of impairment losses, if any, and carrying amounts of investments are adjusted accordingly. Impairment losses are recognized as expense. Where impairment losses subsequently reverses, the carrying amounts of the investments are increased to the revised recoverable amounts but limited to the extent of initial cost of investments. A reversal of impairment loss is recognized in the Statement of Profit or Loss.

4.5.2 Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at Fair Value Through Other Comprehensive Income (FVTOCI), the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

All purchases and sales are recognized on the trade date which is the date that the company commits to purchase or sell the investment, except for sale and purchase of securities in future market which are accounted for at settlement date. Cost of purchase includes transaction cost.

4.6 Stores, spare parts and loose tools

These are valued at lower of cost and net realizable value. Cost is determined by moving average method. Items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon.

4.7 Stock in trade

These are valued at lower of cost and net realizable value except waste which is valued at net realizable value. Cost is determined as follows.

4.7.1 Raw material

In hand	Weighted average cost
In transit	Cost comprising invoice value plus other charges incurred thereon

4.7.2 Work in process Raw material cost plus appropriate manufacturing overheads

4.7.3 Finished goods Raw material cost plus appropriate manufacturing overheads

4.7.4 Waste Net realizable value

Net realizable value signifies the estimated selling prices in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sales.

4.8 Trade debts and other receivables

Trade debts originated by the company are recognized and carried at original invoice value less any allowance for uncollectable amounts. An estimated provision for doubtful debts is made when there is objective evidence that collection of the full amount is no longer probable. The amount of provision is charged to statement of profit or loss. Bad debts are written off as incurred. Other receivables are stated at amortized cost. Known impaired receivables are written off, while receivables considered doubtful are provided for.

4.9 Cash and cash equivalents

Cash in hand, cash at bank and short term deposits, which are held to maturity, are carried at cost. For the purpose of cash flow statements, cash and cash equivalent comprise cash in hand, with banks on current & saving accounts and short term borrowings.

4.10 Staff retirement benefits

Defined benefit plan

The company operates an unfunded gratuity scheme covering for all its permanent employees who have attained the minimum qualifying period for entitlement to the gratuity.

Provision is made annually to cover the obligation on the basis of actuarial valuation and charged to statement of profit or loss currently. The most recent actuarial valuation was carried on June 30, 2021 using the Projected Unit Credit Method.

Expense comprising of current service cost and interest cost is recorded in Statement of Profit or Loss, whereas any remeasurements due to actuarial assumptions are charged to other comprehensive income as and when they arise.

4.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognized in the statement of profit or loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

4.11.1 Current

Provision for current taxation is based on taxability of certain income streams of the company under presumptive / final tax regime at the applicable tax rates and remaining income streams chargeable at current rate of taxation under the normal tax regime after taking into account tax credit and tax rebates available, if any. The charge for current tax includes any adjustment to past years liabilities.

4.11.2 Deferred

Deferred tax is provided, using the Statement of Financial Position liability method, on all temporary differences at the Statement of Financial Position date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and carry forward of unused tax losses and tax credits to the extent that it is probable that future taxable profits will be available against which deferred tax asset can be utilized, except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability that, at the time of transaction, affects neither the accounting nor taxable profits.

The carrying amount of deferred tax assets is reviewed at each Statement of Financial

Position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax asset and liability is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the rates (and tax laws) that have been enacted or substantively enacted at the Statement of Financial Position date.

4.12 Trade and other payables

Liabilities for trade and other payable are carried at fair value plus any attributable cost, to be paid in the future for goods and services received, whether or not billed to the company, and subsequently measured at amortized cost using the effective interest method.

4.13 Ijarah

In ijarah transactions' significant portion of the risks and rewards of ownership are retained by the lessor. Islamic Financial Accounting Standard 2 - 'Ijarah', issued by the Institute of Chartered Accountants of Pakistan, requires the recognition of 'ujrah payments' (lease rentals) against ijarah financing as an expense in the statement of profit or loss on a straight-line basis over the ijarah term.

4.14 Provisions

A provision is recognized in the Statement of Financial Position when the company has a legal or constructive obligation as a result of past event, and it is probable that an out flow of resource embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

4.15 Borrowings and borrowing costs

Borrowings are recognized initially at fair value, net of transaction costs incurred, and subsequently at amortized cost.

Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of the borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs are capitalized as part of the cost of that asset up to the date of its commissioning.

4.16 Revenue recognition

Revenue from contracts with customers is recognized at the point in time when the performance obligation is satisfied i.e. control of the goods is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled to in exchange for those goods.

4.17 Foreign currencies

Monetary assets and liabilities in foreign currencies are translated into Pak Rupee at the rate of exchange prevailing at the Statement of Financial Position date, except those covered by forward contracts, which are stated at contracted rates. Foreign currency transactions are translated into Pak Rupees at the rates prevailing at the date of transaction except for those covered by forward contracts, which are translated at contracted rates. Non monetary items are translated into Pak Rupee on the date of transaction or on the date when fair values are determined. Exchange differences are included in statement of profit or loss currently. Transactions in foreign currencies are translated into Pak Rupees at the rates of exchange approximating those prevailing on the date of the transaction.

4.18 Financial instruments

4.18.1 Financial Assets

Initial Measurement

Initially, the company classifies its financial assets as fair value through other comprehensive income (FVTOCI), fair value through profit or loss (FVTPL), and measured at amortized cost. These are measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. For an item at FVTPL, transaction cost is charged to statement of profit or loss.

Subsequent Measurement

Debt instruments at FVTOCI are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss. Other net gains and losses are recognized in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity instruments at FVTOCI are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognized in profit or loss.

Financial assets measured at amortized cost are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.

4.18.2 Financial Liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss. Any gain or loss on de-recognition is also recognized in the statement of profit or loss.

4.19 Offsetting of financial assets and liabilities

A financial asset and financial liability is offset and the net amount is reported in the Statement of Financial Position if the company has a legal enforceable right to set off the recognized amounts and intends either to settle on net basis or to realize the assets and the liabilities simultaneously.

4.20 Impairment

At each Statement of Financial Position date, the company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Recoverable amount is the higher of sale value less cost to sell and value in use.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognized as an immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income immediately.

4.21 Related party transactions

All transactions with related parties are carried out by the company at arms' length price using the method prescribed under the Companies Act 2017 with the exception of loan taken from related parties which is interest / mark up free.

4.22 Segment reporting

Segment reporting is based on the operating (business) segments of the entity. An operating segment is a component of the entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the entity's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker ('CODM') to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the entity that makes the strategic decisions.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those incomes, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated.

Transactions among the business segments are recorded at cost. Inter segment sales and purchases are eliminated from the total.

4.23 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of government refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognizes government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants.

Government grants are recognized at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

4.24 Research and development cost

Research and development cost is charged to statement of profit or loss in the year in which it is incurred.

4.25 Dividend

The dividend distribution to the shareholders is recognized as a liability in the period in which it is approved by the shareholders.

The apex court further stops the government to charge GIDC in remainder period of financial year 2021. 39 MEASUREMENT OF FAIR VALUES

A number of the company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the

valuation techniques as follows:

Level 1: quoted prices (Unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quote prices included in Level 1 that are observables for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurements is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the management recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

کمپنی کے تمام مالی اثاثے زیر دست نقد رقم کے علاوہ کریڈٹ خطرے کے تابع ہیں۔ کمپنی کا خیال ہے کہ یہ کریڈٹ رسک کی اہم حدود سے متعلق نہیں ہے۔ اس خطرہ سے گزشتہ تجربے، بیلنجم، مالی پوزیشن پر غور، پچھلے ٹریک ریکارڈ اور وصولیوں، خاص طور پر ٹیکسٹائل سیکٹر اور عام طور پر صنعت کے اقتصادی حالات کی بنیاد پر کریڈٹ کی حدیں مقرر کر کے اپنے صارفین کو محفوظ کیا جاتا ہے۔ کمپنی کا خیال ہے کہ مشکوک قرضوں کے حصول سے گریز کیا جائے۔

غیر ملکی کرنسی کا خطرہ بنیادی طور پر وصولیوں اور ادائیگیوں کا غیر ملکی کرنسیوں میں لین دین کی وجہ سے پیدا ہوتا ہے۔ کمپنی بنیادی طور پر خام مال اور پلانٹ اور مشینری کی درآمد پر مختصر مدتی USD / PKR برابری پر قابو پاتی ہے۔

اور ملازمین کو اس کے نفاذ کی طرف مزید راغب کرنے کے لیے مناسب حوصلہ افزائی فراہم کی جائے۔ ہم اپنے ملازمین کے مجموعی ورک لائف توازن کو برقرار رکھنے کی کوشش کرتے ہیں، جس کے نتیجے میں، ان کی پیداواری صلاحیت میں اضافہ ہوا ہے اور ان کی مجموعی ملازمت میں مدد ملی ہے۔

کارپوریٹ سماجی ذمہ داری (سی ایس آر)

دین کی CSR پالیسی کی اس کے اسٹیک ہولڈروں کی زندگی کو مثبت طور پر چھونے کے لئے اہم ہونے کی وجہ سے حوصلہ افزائی کی جاتی ہے۔ دریں اثناء ہم کمیونٹی جہاں ہم رہتے ہیں کی مدد کرنے کو ہمہ وقت تیار رہتے ہیں اور مختلف سوشل اور سماجی سرگرمیوں کے ذریعے کام کرتے ہیں۔ اس سمت میں، ہماری مرکز توجہ کے اہم شعبوں میں صحت کی دیکھ بھال، تعلیم اور کھیل شامل ہیں۔ گزشتہ تین عشروں کے دوران دین ٹیکسٹائل کا فلسفہ اخلاقی اور ذمہ دارانہ طریقے سے کاروبار چلانا، جس ملک میں یہ کاروبار کرتی ہے اس کی ترقی میں مدد کرنا رہا ہے۔ کمپنی سماجی اقدامات اٹھاتی ہے جس سے یہ خیال کیا جاتا ہے کہ اس کی شراکت اس کمیونٹی کی زندگی کو بہتر بنائے گی۔

دین کارپوریٹ فلسفہ، توانائی کی بچت، ماحولیاتی تحفظ کے اقدامات، سماجی سرمایہ کاری، صارفین کی حفاظت کے اقدامات، خصوصی افراد کو ملازمت، صنعتی تعلقات، پیشہ ورانہ تحفظ اور صحت، کاروباری اخلاقیات، اینٹی کرپشن کے اقدامات اور قومی خزانہ میں حصہ لینے کے ذریعے فعال کارپوریٹ شہری کا کردار ادا کرتی ہے۔

مستقبل کا نقطہ نظر

ہم سمجھتے ہیں کہ چین اور دیگر علاقائی ایشیائی ممالک سے باہر آرڈرز کی مسلسل تبدیلی کی وجہ سے ملکی اور عالمی سطح پر یارن اور فیکٹر کی طلب مضبوط ہے۔ ریاستہائے متحدہ نے ٹیکسٹائل مصنوعات جو کہ Xinjian صوبہ کی کاٹن سے تیار کی گئی ہے پر پابندی عائد کی ہے، یہ پاکستان کے برآمد کنندگان کے لیے ایک موقع ہے کہ وہ یو ایس منڈیوں کو ٹیپ کریں۔ ٹیکسٹائل کے شعبے میں زیادہ کچھٹی نے دیکھا کہ یہ مضبوط آرڈر ملنے کا اشارہ ہے، جبکہ برآمدات کی مسابقت کو حالیہ روپے کی قدر میں کمی، حکومت کی طرف سے خام مال پر درآمدی ٹیرف اور بجلی کی سبسڈی کی مسلسل معقولیت سے بھی مدد ملی ہے۔ رواں میزن 2021-22 کے لیے پاکستان کاٹن کی فصل کی 8 ملین گانٹھوں کی پیش گوئی کی گئی ہے اور روپی کی درآمد سے شارٹ فال کا احاطہ کیا جائے گا ڈالر کے مقابلے میں روپے کی قدر میں کمی کی وجہ سے خام مال کی قیمتیں زیادہ ہیں۔ آپ کی کمپنی کی انتظامیہ صورتحال کا پیشگی اندازہ لگاتی ہے اور اس کا فعال جواب دیتی ہے۔ خام مال کی زیادہ قیمت کی وجہ سے منافع کے مارجن میں کمی آسکتی ہے جو نئی درآمدی منڈیوں کو ٹیپ کر کے واپس لی جائے گی۔

موجودہ سال کے مقابلہ میں ٹیکسٹائل اسپننگ / ویونگ شعبے کے لئے ملک کا معاشی منظر نامہ اور مارکیٹ کی صورتحال مستقبل قریب کے لئے بہتر دکھائی دے رہی ہے۔ ٹیکسٹائل کے شعبے کی بحالی کے لئے حکومت کو توانائی کی لاگت، یارن کی درآمد سے متعلق مسئلے کو مختلف اسکیموں کے تحت حل کرنے کی ضرورت ہے اور کپاس کی ڈیوٹی فری درآمد کی اجازت دی جائے کیونکہ مقامی کپاس مقامی کپھت کے لئے ناکافی اور اعلیٰ معیار کے فائن کاؤنٹ یارن کی تیاری کے لئے موزوں نہیں ہے۔

ورکنگ کیپٹل میں تبدیلیوں، آمدنی ٹیکس کی ادائیگی، مالیاتی اخراجات، ڈبلیو پی پی ایف اور عملے کے ریٹائرمنٹ کے فوائد کے بعد آپریشن سے کمپنی کا موجودہ سال کا نقد بہاؤ 1,791.677 روپے کا نقد ان فلو آپریشنز کو کنٹرول اور اچھے انتظامات کے لئے کمپنی کی منجمنٹ کی کوششوں کو ظاہر کرتا ہے۔ آپ کی کمپنی نے سکیل کی معیشت حاصل کرنے کے لئے مسلسل BMR پالیسی کو جاری رکھتے ہوئے موجودہ سال میں 4,041.225 ملین روپے اور سال 2019-20 میں 2,320.203 ملین روپے خرچ کیے۔ سرمایہ کاری سرگرمیاں 4,041.225 ملین روپے اور خالص فنانس کی سرگرمیاں 3,541.016 ملین روپے کی ایڈجسٹمنٹ کے بعد، سال کے دوران کمپنی کا خالص نقد ان فلو 1,291.469 ملین روپے، سال کے اختتام پر نقد اور نقد کے مساوی گزشتہ سال کے مختصر مدتی قرض 1,974.513 ملین روپے کے مقابلے موجودہ سال میں 498.470 ملین روپے مختصر مدتی قرض کی رقم ظاہر کرتی ہے۔

سال 2020-21 کے لئے کمپنی کے مالیاتی نتائج کو مد نظر رکھتے ہوئے، ہم اپنی مالیاتی کارکردگی کو فروغ دینے پر توجہ مرکوز کرنے کی اپنی پوری کوششیں کر رہے ہیں جو ہمیں طویل عرصے تک ترقی کو برقرار رکھنے اور مستقبل میں ہمارے اسٹیک ہولڈرز کے لئے صنعت کی آمدنی کو فروغ دینے میں معاون ہے۔

ڈیویڈنڈ اور تصرفات

تنوع اور توسیعی منصوبوں کے حصہ کے طور پر، کمپنی نے ایک مالی حکمت عملی پر عملدرآمد کیا ہے جس میں کیپٹل انٹینسٹی منصوبوں کی فنانس کے لئے داخلی پیدا ہونے والا نقدی بہاؤ استعمال کی گیا ہے۔ بورڈ آف ڈائریکٹرز نے 30 جون 2021 کو ختم ہونے والے سال کے لئے کوئی منافع تقسیم نہ کرنے کی تجویز دی ہے (Nil:2019-20)۔

تحقیق و ترقی

دین ٹیکسٹائل میں، ہم نے حالیہ برسوں میں بدلتے ہوئے جس عمل کا مشاہدہ کیا اس کے جواب میں اپنے نقطہ نظر میں ہم آہنگ رہے ہیں۔ تاہم، ہم نے اپنی تحقیق اور ترقی کی صلاحیتوں کو بڑھا کر، ابھرتی ہوئی پالیسیوں اور انرجی لینڈ اسکیپ کی تزئین کاری سے جواب دے کر، انتہائی قابل عمل سلوشنز پر اور جدید ٹیکنالوجیز اور انسانی وسائل میں سرمایہ کاری کر کے اپنے آپ کو تیزی سے ڈھال لیا ہے۔ ہم سمجھتے ہیں کہ جدید ٹیکنالوجی پائیداری کے حصول، کاروبار میں جدت لانے اور ہمارے اسٹیک ہولڈرز کے لیے طویل مدتی قدر بڑھانے میں اہم کردار ادا کرتی ہے۔ ہم سمجھتے ہیں کہ جدت شمو کو برقرار رکھنے کا حل ہے۔ بی ایم آر میں ہماری مرکز اور مسلسل سرمایہ کاری جو کہ سال کے دوران جدید ٹیکنالوجی کو اپ ڈیٹ کرتی ہے ہماری کمپنی نے 144 لومز کا ایک نیا ویلنگ یونٹ قائم کیا اور موجودہ اسپننگ یونٹس میں توسیع اور بی ایم آر پر ہم نے کمپنی کو مارکیٹ کی بدلتی ضروریات کے مطابق دوبارہ ترتیب دینے کے لئے کیپٹل اخراجات پر خالص 4,059.785 ملین

ٹیکسٹائل اسپننگ سیکٹر میں ٹیکنیکل اپ گریڈیشن کو مد نظر رکھتے ہوئے زیادہ موثر اور کم خرچ پیداواری سہولیات جو موجودہ یارن مارکیٹ میں ہمیں زیادہ تقابلی بناتی ہیں کے حصول کے لئے ٹیکسٹائل اسپننگ سیکٹر میں ٹیکنیکی اپ گریڈیشن کو مد نظر رکھتے ہوئے، ہماری کمپنی مسلسل کمپنی کے تمام یونٹوں میں بی ایم آر کر رہی ہے۔ بجلی کی فراہمی پر مشتمل نہ ہونے کے باوجود، وبائی صورتحال کی وجہ سے ملک میں سخت لاک ڈاؤن کے دوران پیداواری کاموں کی عارضی بندش/مزدوروں کی کمی کی وجہ سے سالانہ پیداوار کے اہداف بنیادی طور پر پورے نہ ہو سکے۔

گزشتہ سال 2019-2020 میں مارکیٹ صورت حال کو مد نظر رکھتے ہوئے آپ کی کمپنی کی انتظامیہ نے 144 لومز کی صلاحیت کے ساتھ ویونگ یونٹ قائم کرنے کا فیصلہ کیا۔ سبب بنیادی تقریب سے 1 سال کی ریکارڈ مدت کے ساتھ فروری 2021 میں ہم نے کمرشل پیداوار کا آغاز کیا، 5 ماہ کی بنیاد پر پیداواری صلاحیت میں ہم نے بتدریج پیداوار کے اشارات اپ کی وجہ سے 31.23 فیصد کا استعمال کیا۔ جون 2021 میں تمام 144 لومز مکمل طور پر پروڈکشن میں آگئیں۔ ہماری انتظامیہ کو یقین ہے کہ ہم جدید ویونگ پروڈیکٹ رکھنے کی وجہ سے دیگر حریفوں سے زیادہ موثر طور پر ویونگ سیکٹر میں کارکردگی ظاہر کریں گے اور یہ اسٹیک ہولڈرز کی دولت بڑھانے میں اہم شراکت ہوگی۔

مالیاتی جائزہ

جاری COVID-19 عالمی وبائی بیماری کے باعث پیدا ہونے والے انتہائی مشکل ماحول کے تحت کام کرتے ہوئے، دین ٹیکسٹائل نے مالی سال کا آغاز کیا جو کہ پہلے سہ ماہی میں بھی ٹوٹ پڑی اور آخر کار اس سال کا اختتام قابل ذکر کارکردگی کے ساتھ ہوا۔ دین ٹیکسٹائل نے 2019-20 میں 12.483 بلین روپے فروخت کے مقابلے میں خالص فروخت 17.641 بلین روپے درج کی۔ موجودہ غیر یقینی معاشی صورتحال اور غیر مسابقتی کاروباری ماحول کے باوجود آپ کی کمپنی نے سب سے زیادہ ٹیکس سے پہلے منافع 1.937 بلین روپے درج کیا جبکہ سال 2019-20 میں کمپنی نے ٹیکس سے پہلے منافع 177.722 بلین روپے کمایا تھا۔ زیر جائزہ مدت کے دوران منافع کے اہم عوامل میں دونوں مارکیٹوں بین الاقوامی اور مقامی میں سوت کی سازگار قیمتیں، مارکیٹ کی ضرورت اور منافع کے مطابق مصنوعات کی تنوع کے ساتھ پیداواری سہولیات کا بہترین استعمال ہیں۔ اگرچہ 2020/21 کمپنی کے لیے سازگار کے طور پر ختم ہوا، کوویڈ 19 انفیکشن کی بعد کی لہروں کے ساتھ سپلائی چین میں رکاوٹیں دیکھی گئیں، جس نے بہت سے منفی معاشی اور سماجی نتائج کو جنم دیا۔

ہم اعلیٰ مالی نتائج کے ساتھ کم قیمت کی معیاری مصنوعات کی تبدیلی کے ذریعے اپنی پراڈکٹ میں کو بڑھانے کیلئے پُر عزم ہیں۔ ہم کاروباری انتظام کے 4M نظریہ (انسان، مواد، مشینری اور طریقوں) کو نافذ کر رہے ہیں اور مسابقتی کاروباری ماحول میں بہت بہتر کارکردگی کا مظاہرہ کرتے ہیں۔ ہم نے لاگت کی بچت اور کنٹرول، خاص طور پر بڑھتے ہوئے ان پٹ اخراجات کے منفی اثرات کو دور کرنے کے اقدامات کیے ہیں۔ فروخت کی لاگت فروخت کے مقابلے 7.29 فیصد تک کم ہوگئی۔ یہ 14.53 بلین روپے ہے جو سال 2020-21 میں فروخت کی 82.35 فیصد ہے جبکہ سال 2019-20 میں یہ 11.19 بلین روپے تھی جو کہ فروخت کی 89.64 فیصد تھی۔ قیمت فروخت میں کمی بنیادی طور پر کوالٹی پر سمجھوتہ کئے بغیر روپیہ کی قیمت میں کمی اور بلوں اور دیگر اخراجات میں مسلسل اضافہ کے رجحان کے باوجود انتظامیہ کی لاگت بچانے والی پالیسیوں کی وجہ سے قابو میں رہی ہے۔ انتظامیہ انوینٹری مینجمنٹ پر موثر کنٹرول رکھتی ہے، خام مال کی قیمتوں میں اضافہ کے باوجود، خام مال کی کھپت صرف 8.07 فیصد کم ہوئی جو موجودہ سال میں خالص فروخت کی 60.80 فیصد ہے، جبکہ سال 2019-20 میں یہ خالص فروخت کی 68.87 فیصد تھی۔ فروخت کے مقابلے بجلی کی قیمت بھی 1.260 فیصد تک کم ہوئی جو موجودہ سال میں فروخت کی 7.25 فیصد ہے جبکہ یہ سال 2019-20 میں 8.5 فیصد تھی۔ فروخت پر خالص منافع مارجن میں اضافہ رواں سال کی پہلی سہ ماہی میں یارن کی طلب میں بتدریج اضافہ اور یارن کی قیمتوں میں اضافہ اور پھر مقامی اور بین الاقوامی مارکیٹ میں پوری مدت کے دوران قیمتیں مستحکم رہنے کی وجہ سے ہوا ہے۔

دین ٹیکسٹائل کی انتظامیہ نے موجودہ اقتصادی اور مارکیٹ حالات کے مد نظر کاروبار کے تمام شعبوں میں بہترین مذاکرات کی مہارت کا استعمال کرتے ہوئے، قیمت شعور ثقافت کو فروغ دینے کیلئے کافی کوششیں اور حوصلہ افزائی کے اقدامات کئے ہیں، تقسیم کے اخراجات، انتظامی اخراجات میں فروخت فیصد کے

مارکیٹنگ سرگرمیاں

پاکستان میں ٹیکسٹائل انڈسٹری نے رواں مالی سال کے دوران 22.94 فیصد کا اضافہ کیا، جس سے 15.4 ملین ڈالر مالیت کے ویلیو ایڈڈ ٹیکسٹائل برآمد کیے گئے۔ حکومت نے اس نمونہ کو آسان بنانے کے لیے متعدد اقدامات کیے اور اس کامیابی کو مستقبل کے لیے بھی مستقل مزاجی کے وعدے کے ساتھ پورا کیا جانا چاہیے۔ برآمدات میں اس اضافے کا تجربہ کرنے کی ایک وجہ وبائی بیماری تھی۔ کوویڈ 19 نے برآمد پر مبنی صنعتوں کو وائرس کی منتقلی کو محدود کرنے کے لیے بند کرنے پر مجبور کیا۔ اس کے مطابق، بین الاقوامی آرڈر منسوخ کر دیے گئے اور پیداوار کم ترین سطح پر چلی گئی۔ اب جب کہ پابندیوں میں نرمی کی جارہی ہے، صنعت کے اندر بڑی پیش رفت اور ترقی ناگزیر ہوگئی۔ اس کے بعد، کئی ایسے اقدامات بھی ہیں جو حکومت نے خود کیے۔ اس نے خام مال کی برآمدات کو محدود کر دیا تاکہ مقامی طلب کو پہلے پورا کیا جاسکے۔ مزید برآں، طلب اور رسد کے درمیان فرق کو ختم کرنے کے لیے، اس نے خام مال کی ڈیوٹی فری درآمد کی اجازت دی۔ اس نے صنعت کو بااختیار بنایا تاکہ برآمدات بڑھانے کے دباؤ کے ساتھ ساتھ خود کی معیشت کو برقرار رکھ سکے اور آمدنی پیدا کرنے کی اجازت دی۔

زیر جائزہ سال کے دوران، کمپنی کی مجموعی فروخت میں قیمت کے لحاظ سے 41.51 فیصد کا اضافہ ہوا، اس کی بنیادی وجہ 2,976 اسپنڈلز کے اضافے کی بدولت پیداواری صلاحیت میں اضافہ اور پیداواری نقصانات کو کم کرتے ہوئے پیداواری عمل کی سخت نگرانی ہے، جبکہ بین الاقوامی مارکیٹوں اور مقامی مارکیٹوں میں بھی یارن کی بہتر قیمتوں کی وجہ سے برآمدی فروخت میں 62.20 فیصد کا اضافہ ہوا، مقامی فروخت میں پچھلے سال کے مقابلے میں 33.52 فیصد اضافہ ہوا ہے۔ مجموعی مقامی اور برآمدی فروخت کا امتزاج رواں سال کے دوران بالترتیب 68.05 فیصد اور 31.95 فیصد ہے جبکہ سال 2020 میں یہ 72.13 فیصد اور 27.87 فیصد تھا۔ COVID-19 اثرات اور غیر یقینی عالمی اقتصادی حالات کے باوجود، آپ کی کمپنی کی انتظامیہ نے حالات پر فعال رد عمل دکھایا اور لاگت پر سخت کنٹرول اور اسٹاک کے بہتر انتظام کے ذریعے مجموعی مارجن 7.29 فیصد (2021: 17.65 فیصد، 2020: 10.36 فیصد) زیادہ ہوا ہے۔

آپریشنل جائزہ

پاکستان میں کپاس کی پیداوار گزشتہ سال کی اسی مدت کے مقابلے میں رواں مالی سال 2020-21 میں 34 فیصد کم ہو کر 5.57 ملین گانٹھیں (155 کلوگرام فی گانٹھ) رہ گئی ہے۔ یہ پیداوار پورے سال کی پیداوار کے مطابق جاری سال میں چار دہائیوں کا کم ترین تخمینہ ہے۔ 15 نومبر کو، متعلقہ حکام نے 155 کلوگرام کی 4.03 ملین گانٹھوں (480 پونڈ کی 2.9 ملین گانٹھوں کے برابر) کی پہنچ ظاہر کی، جو پچھلے سال کی اسی مدت سے 41 فیصد کم ہے۔ پاکستان میں کپاس کی پیداوار "کاشت کئے گئے رقبے میں 10 فیصد کمی، مون سون کی بھاری بارشوں سے فصلوں کو پہنچنے والے نقصانات اور کیڑوں کے شدید حملے" کی وجہ سے کئی سالوں کی کم ترین سطح پر کم ہونے کی توقع ہے۔ مقامی رسد میں کمی کو درآمدات کے ذریعے پورا کیا جائے گا، کپاس کی درآمد کی پیش گوئی 480 پونڈ کی 4.9 ملین گانٹھیں ریکارڈ کی گئی ہے، جو کہ سال کے دوران 4.7 ملین گانٹھوں کی مقامی پیداوار سے قدرے زیادہ ہے۔

مقامی سطح پر کپاس کا موجودہ میزن 2020-21 کا آغاز پچھلے سال کی خام کپاس کی قیمتوں کے مقابلے معمولی زیادہ قیمتوں (2020-21: Rs. 9,000) پر ہوا ہے۔ پورے سال کے دوران کپاس کی قیمتوں میں بڑھنے کا رجحان رہا اور جون اور جولائی 2021 میں 13,900 روپے کی اعلیٰ سطح تک پہنچ گئیں، پچھلے سال اوسط قیمتیں -/9,300 روپے فی من 40 کلوگرام کے مقابلے رواں سال اوسط قیمتیں -/11,400 روپے فی من رہی جو پچھلے سال کی قیمتوں سے 22.58 فیصد زیادہ ہے۔

دنیا کے مختلف ممالک میں کوویڈ 19 کے متعدد مسلسل حملوں اور لاک ڈاؤن کی غیر یقینی صورت حال نے عالمی سطح پر ٹیکسٹائل کی صنعت کو بری طرح متاثر کیا ہے، ان حقائق کے باوجود ہماری انتظامی ٹیم مارکیٹوں کے رویہ پر گہری نظر رکھے ہوئے ہے اور کسی بھی غیر متوقع صورتحال کا مقابلہ کرنے کے لئے حکمت عملی کے ساتھ تیار ہے۔ سال کے دوران ہماری کمپنی نے 40.083 ملین کلو دھاگہ تیار کیا جبکہ گزشتہ سال کے دوران 35.601 ملین کلوگرام تیار کیا تھا، اس طرح اس سال کے دوران اوسطاً صلاحیت 91.95 فیصد رہی جبکہ گزشتہ سال کے دوران 86.60 فیصد تھی۔ سال کے دوران 123,072 اسپنڈلز میں سے 118,906 آپریشنل رہے ہیں جس میں نصب صلاحیت کا 96.61 فیصد استعمال ہوا جبکہ گزشتہ سال نصب صلاحیت کا 83.93 فیصد استعمال ہونے کے باعث 120,096 اسپنڈلز میں سے

چیسر مین کا جائزہ

بطور چیسر مین، وین ٹیکسٹائل ملز لمیٹڈ کے 34 ویں سالانہ اجلاس عام میں آپ کو خوش آمدید کہتا ہوں اور، میں 30 جون 2021 کو ختم ہونے والے سال کے لئے 34 ویں سالانہ رپورٹ اور نظر ثانی شدہ مالی حسابات پیش کرتے ہوئے خوشی محسوس کر رہا ہوں۔ بہت ہی مشکل سال کے باوجود، وین ٹیکسٹائل ٹیم نے رکاوٹوں پر قابو پانے کے لئے انتھک کام کیا اور مالی سال کا اختتام ایک مضبوط نوٹ پر ہوا۔

اقتصادی ماحول

"حالیہ مہینوں میں عالمی سرگرمی مضبوط ہوئی ہے، مختصر مدتی بین الاقوامی معاشی نقطہ نظر، خاص طور پر پاکستان کے اہم برآمدی شعبوں میں اب بھی COVID-19 وبائی بیماری پر بہت زیادہ انحصار کرتا ہے۔ روزگار مارکیٹ کی بہتری اور خوردہ اخراجات میں اضافہ کے درمیان امریکی معیشت کی بحالی نازک رفتار کو برقرار رکھتی نظر آتی ہے۔ حکومت نے وبائی بیماری کو کافی مہارت سے سنبھالا جس کا دنیا بھر میں اعتراف کیا گیا ہے۔ اس کے علاوہ، حکومت نے مشکل اوقات میں کاروبار اور معیشت کو مدد فراہم کرنے کے لیے معاشی محاذ پر تیز اور بروقت اقدامات کیے۔ لہذا نئے مالی سال کے آغاز پر، معاشی بحالی کے آثار نمایاں ہونے لگے ہیں جیسا کہ اقتصادی متغیرات کے اعداد و شمار سے ظاہر ہوتا ہے۔ سب سے تیز نمو ٹیکنالوجی آلات میں درج کی گئی، جس نے چار سالوں میں تیز ترین رفتار اور دوسری تیز ترین توسیع درج کی۔ فنلنس سے متعلق شعبوں نے مضبوط کارکردگی کا مظاہرہ کیا۔ مشینری اور آلات نے بھی مضبوط نمو درج کی۔ خاص طور پر ٹرانسپورٹیشن نے جولائی 2020 کے بعد پہلی بار مارچ میں اعلیٰ سرگرمی درج کی۔ تقریباً سال بھر میں پالیسی شرح 7 فیصد کی سطح پر برقرار رہی ہے جس نے بڑے پیمانے کی صنعتوں کی نمو کو سہولت فراہم کی ہے۔

پاکستان کی معیشت نے معاشی بحالی کے نمایاں آثار ظاہر کئے ہیں جس سے معاشی محرکات تیزی سے بحال ہو رہی ہیں۔ حکومت نے نمونہ اقدامات کیے ہیں اور مثبت اصلاحی رفتار پر عمل پیرا ہے گی جس سے پاکستان کی معیشت کی مسابقت کو بڑھانے میں مدد ملے گی اور زیادہ مضبوط، جامع اور پائیدار بحالی کی مضبوط بنیاد رکھی جائے گی۔ پاکستان کے بڑے اقتصادی اشاروں میں حالیہ پیش رفتیں مثبت ہیں۔ کسی بڑے غیر متوقع منفی شاکس کی عدم موجودگی میں معیشت متوازن اور پائیدار ترقی کی راہ پر گامزن ہے۔ چیلنج یہ ہے کہ اس پائیدار ترقی کے راستے کو ایک اعلیٰ سطح تک پہنچایا جائے۔ اس کے لیے پاکستان کی پیداواری صلاحیت کو بڑھانا اور اس بات کو یقینی بنانا ضروری ہے کہ اس اضافی پیداوار کا کافی حصہ برآمد کیا جائے، اس کے علاوہ مقامی صارفین کی ضروریات کو بھی پورا کیا جائے۔ پیداواری صلاحیت اور اس کی کارکردگی کو بڑھانا ممکنہ اور مستقبل کی آمدنی کے بڑے تناسب کو کھپت کے بجائے سرمایہ کاری کی طرف مبذول کیے بغیر ممکن نہیں ہے۔

ٹیکسٹائل کے مستقبل کا نقطہ نظر

مجموعی طور پر ٹیکسٹائل کی برآمدات میں گزشتہ سال کے اسی مہینے کے مقابلے میں مارچ 2021 کے دوران 30.6 فیصد کا اضافہ ہوا۔ ٹیکسٹائل سیکٹر کی یہ غیر معمولی کارکردگی جزوی طور پر حکومت کی معاون پالیسیوں کی وجہ سے ہو سکتی ہے جس میں علاقائی مسابقتی توانائی کے نرخوں کا متعارف کروانا، صنعتی خام مال پر ڈیوٹی اور ٹیکسز کا خاتمہ، شرح سود کم کرنا اور برآمد کنندگان کو زیر التواء رقم کی ادائیگی شامل ہے۔ COVID-19 وبائی بیماری کی وجہ سے ہندوستان اور بنگلہ دیش جیسی علاقائی ٹیکسٹائل مارکیٹوں کی بندش نے بھی عالمی توجہ پاکستان کی طرف مبذول کرائی ہے۔ ٹیکسٹائل مصنوعات جو پاکستان برآمد کرتا ہے وہ، خام کپاس سے لے کر ریڈی میڈ گارمنٹس تک متنوع ہیں۔ تاہم، حالیہ اضافہ کے علاوہ، مجموعی طور پر ٹیکسٹائل کی برآمدات میں کمی آئی ہے۔

مشینری میں بڑی سرمایہ کاری، معیاری خام مال کی دستیابی، بہتر مہارت کا سیٹ، اور مصنوعات کی ترقی اس شعبے کی برآمدی صلاحیت کو سمجھنے کے لیے ضروری ہے۔ تاہم، مسلسل اور متوقع پالیسیوں، اور بجلی کی مسلسل فراہمی کی عدم موجودگی میں ان راستوں میں کامیابی ممکن نہیں ہے۔ یہ خاص طور پر ٹیکسٹائل مصنوعات میں شدید مقابلہ کی وجہ سے ٹریو ہے جو ہمارے علاقے میں مشاہدہ کیا گیا ہے۔ دوسری طرف کپاس پریسلز ٹیکس میں 7 فیصد (10 فیصد سے 17 فیصد) کا اضافہ نے اسپننگ سیکٹر کے لیے لیکویڈیٹی اور پورے سال کے لیے معیاری کپاس کی خریداری کرنے کے لئے زیادہ قرضہ پر فنانس لاگت کی وجہ سے کاروبار کرنے کی لاگت کا مسئلہ بھی پیدا کیا ہے۔
