The financial results of company for the nine months period ended March 31,2022 are much better in comparison to previous contemporary period. This is very encouraging situation which is due to efforts of management toward profitability and management is continuously striving their best to capture both local and international markets by intelligent marketing strategies.

General Market Conditions

The rise in prices of raw material both in local market and international market creates high pressure on financial operations. Although, textile sectors is earning good profits but at the same time, most of the profits earned are being attributed to working capital due to such increase in prices of raw material. The political instability in the country, decline in the value of Pakistani currency also creating pressures on businesses overall. The non availability of RLNG (Gas) at 100% consumption requirements creates serious problems regarding electricity and running of factories at full capacity.

Future Outlook

As the cost of production increases substantially by each passing day due to increase in prices of raw material, the price of final consumer products not supporting such rise till now which creating problems on future viability of operating business at good margins. As far as, upcoming local cotton season is concerned, it is also expected that the prices of raw material will not observe some major decline in the value due to shortage both locally and in international market. In addition, proposed minimum wages increase,

increase in markup rates, increase in the cost of utilities coupled with devaluation in value of Pakistani currency, all are not favorable signs in coming days. Political instability, high inflation and monetary measurements being taken by Government to stable the value of Pakistan currency making it difficult to expand business by setting up new factories and BMR. However, despite all the challenges, management is striving for best, making strategies keeping in view current market conditions for conduct of business for the benefit and wealth generation for all stakeholders.

Acknowledgment

The Board of Directors would take a pleasure in appreciating all stakeholders for their endeavoring and their outstanding commitment in improving the performance of the Company and making it the leader in Textile sector exclusively. The Company looks toward your continuous support as always to help us navigate through difficult economic conditions both locally and internationally.

On behalf of the Board of Directors
